Selangor Medical Centre (SMC) an ISO 9001:2000 certified hospital, has been in operation since June 1996, offering Polyclinic, Out-patient, Specialist and Diagnostic treatment, is an integrated one-stop medical centre using state of the art facilities, with comprehensive range of medical and surgical specialties.

Utilizing modern hospital management system towards realizing the endeavour to be the premier private hospital in Malaysia and positioned SMC as the hospital of choice in the delivery of effective and quality healthcare to serve the needs of patients within its vicinity, nationwide and worldwide.

The hospital has 7 floors of comprehensive hospital facilities. These includes: 220 tertiary acute care inpatient beds, 7 operation theatres, day surgery, intensive and coronary care units, special care nursery, labour rooms, accident and emergency unit, pharmacy, radiology, rehabilitation, lithotripsy, haemodialysis, laboratory and a host of other supporting facilities.

Located within 35 minutes drive from Kuala Lumpur International Airport (KLIA) and 25 minutes to Kuala Lumpur. Conveniently accessed by excellent network of highways: KL-Klang Federal Highway, North Klang Valley Expressway (NKVE), ELITE, PLUS and LITRAK, and within international class hotels (Concorde, Grand Bluewave, Quality and Pan Pacific), shopping complexes, golf clubs and several tourism attractions.
