"Our Commitment to Eye Care"

The Tun Hussein Onn National Eye Hospital (THONEH) is a not for profit charitable hospital dedicated in providing cost effective quality eye care services in a professional, caring environment and accentuates commitment to our patients. THONEH believes in providing safe and quality services.

At the Tun Hussein Onn National Eye Hospital, patients have access to a wide range of facilities and services, professional expertise and latest technology as well as dedicated and well-trained Staff in all disciplines of eye care. THONEH is proud to be the only eye Hospital in Malaysia growing in leaps and bounds to be comparable with the Eye Hospitals in the region.

We have the latest development in LASIK technology using NASA technology for wavefront-assisted laser eye surgery called CUSTOMCORNEA® LASIK. Wavefront technology is applied to vision correction via the diagnostic LADARWave® device, our eye doctors can now measure optical errors – the types of errors linked to glare, halos and night vision problems.

CUSTOMCORNEA® LASIK can deliver even better results improving vision quality and lifestyle. An estimated 98% of the patients see 20/20, 20/40 vision without glasses with visual crispness and clarity.

OUR MISSIONS

- To provide comprehensive state-of-the-art professional services, diagnostic, curative, preventive and rehabilitative in the nature of eye care to all strata of Malaysian Society.
- To develop Education and Research Programmes in the context of our search for Excellence and Continuing Medical Education.
- To innovate and implement community based eye care programmes.
- To establish Professional linkages with reputable centres Internationally for mutual exchange of evolving technologies.
- To ensure the evolvement of the Hospital as a Regional Centre of Excellence.
